

Sex and Current Gender Display Crib Sheet

Current Gender

Label

Use the label shown for current gender wherever it is displayed

Current Gender Female

Gender: A person's current Gender. This may differ from a person's Sex (which is the Gender registered at birth)

Status Definitions Make the definitions of the Current Gender status values accessible to the user (for example, by tooltip)

Example Definitions for Data Values

When the person has a clear idea of what their gender is, but is neither discretely male nor female. For example, 'intersex', 'transgender' or 'third gender'

Used when no information on this subject is known

When the person is unable to specify their current gender or does not have a clear idea of their current gender
